## ULTRA HIGH WEAR RESISTANCE PACKAGE

**CALL TOLL FREE  
TO STRENGTHEN  
YOUR PRODUCTIVITY**  
1-888-439-2491

**FEATURING YOUR CHOICE  
OF TWO 3-YEAR  
WEAR RESISTANCE  
GUARANTEES**

*Running glass-filled  
or other abrasive resins?*

*Get protection from excessive wear  
on your barrel, screw and screw tip.*

*The WEARSTAR Package from  
SERVTEK is developed specifically for  
"high wear" processes. We have  
created an ultra-high wear-resistant  
plasticizing kit: super wear resistant  
screw – barrel – tip assembly, all in  
one turn-key super-molding package.*

**For any  
make machine.**

**For any model.**

**Old or new.**

SERVTEK has put together the latest technology in wear resistant super-alloy feedscrews and super-wearing alloy barrels and tips. We've gathered the finest plasticizing products from our own manufacturing resources as well as the latest wear-resistant technology from around the world to create this package.

And we have adapted it for installation in any machine. Any make or model. No matter how new. No matter how old. Now any machine can process in the harshest of processing environments.

**Choose from two  
unprecedented 3-year  
wear resistant  
guarantees.**

We are backing our WEARSTAR Package with your choice of two 3-year warranties against wear to all components: screw – barrel – tip assembly. Your wear problems are solved with the super guaranteed WEARSTAR Wear Package.

The following warranty is provided by SERVTEK and Milacron Marketing Company in addition to our standard warranty which is also applicable to the WEARSTAR Package.

#### WEARSTAR FEEDSCREW WEAR WARRANTY

In the event the outside diameter of the feedscrew included in the WEARSTAR package wears in excess of specified amounts within 36 months following the date of shipment, the buyer shall receive a warranty credit to be applied toward the feedscrew replacement. The warranty credit shall be 100% of the original purchase price for the first 18 months following the date of shipment. The warranty credit for months 18 through 36 shall be a prorated amount of 50% of the original purchase price of the feedscrew and shall be calculated as follows:

$$\frac{\text{REMAINING WHOLE MONTHS OF ORIGINAL WARRANTY}}{18} \times 100\% \times \frac{\text{ORIGINAL PURCHASE PRICE}}{\text{CREDIT AMOUNT}} = \text{AMOUNT}$$

#### WEARSTAR BARREL WEAR WARRANTY

In the event the barrel in a WEARSTAR Package experiences diametrical wear in excess of specified amounts within 36 months following the date of shipment, the buyer shall receive a warranty credit to be applied toward the barrel replacement. The warranty shall be 100% of the original purchase price for the first 18 months following the date of shipment. The warranty credit for months 18 through 36 shall be a prorated amount of the

purchase price of the barrel and shall be calculated as follows:

$$\frac{\text{REMAINING WHOLE MONTHS OF ORIGINAL WARRANTY}}{18} \times 100\% \times \frac{\text{ORIGINAL PURCHASE PRICE}}{\text{CREDIT AMOUNT}} = \text{AMOUNT}$$

#### WEARSTAR TIP ASSEMBLY WEAR WARRANTY

In the event the carbide inlays on the wear surfaces of the front seat and check ring wear through within 36 months following the date of shipment, we shall replace the front seat and check ring free of charge to the buyer.

#### SUPER WEAR RESISTANCE IS NOW A "NO-BRAINER"

You can search for the finest in wear-resistant feedscrews. Seek out the longest-wearing barrel. Add to it the most advanced tip assembly - all on your own. Or you can issue a single P.O. to SERVTEK for the all-in-one WEARSTAR Wear-Resistance Package. Backed by the finest in wear-resistance guarantees.

#### WARRANTY EXCLUSIONS

This warranty is contingent upon the following conditions:

- The WEARSTAR Package must not be used in the following processes: Glass-fiber filler levels in excess of 50%. Powdered metal injection molding materials and processes.

Processing of flouropolymer materials. Processing of ferrite material. Processes operating at temperatures in excess of 800°F. Non-polymer or twin extrusion processing.

- Installation of the WEARSTAR Package must be performed with proper machine shut-down (purge) and start-up (preheat) procedures.
- All WEARSTAR components must be installed and operated as a unit for this warranty to apply.
- Buyer shall be responsible for removal and installation of WEARSTAR components.
- This warranty does not provide that replacement parts will be immediately available.
- This warranty does not provide replacement parts at no cost to the customer for the period of time it takes warranted replacement parts to arrive and/or be installed.
- Replacement WEARSTAR components shall be warranted for the remainder of the warranty applicable to the original component.
