

Improve your productivity,  
reliability and capability  
with **SERVTEK Services**  
Molding Machine Assessment.

**MOLDING  
MACHINE  
ASSESSMENT**

Have a **SERVTEK Services** expert visit your plant to review your fleet of machines. He can offer ways to maximize the productivity, reliability and capability of your existing equipment.

**PRODUCTIVITY  
ENHANCEMENT**

- Independent Injection Recovery
- AC Extruder Motors
- Increased Injection Rate
- Screw and Barrel Analysis
- Process, Maintenance and Operator Training

**REMANUFACTURE, REBUILD**

ANY SIZE. ANY BRAND. ANYWHERE.

Remanufacture, Rebuild older machines to optimum operating conditions at a fraction of the cost of new!

Before

After

**RELIABILITY  
UPGRADES**

- Control Retrofits  
Xtreem,  
Allen Bradley  
B & R  
and GE
- Toggle Clamp Rebuild
- Annual Machine Calibration
- Latest ANSI Safety Updates
- Predictive Maintenance Services

*Let Milacron SERVTEK Services breathe new life and capability into your horizontal and vertical injection molding machines.*

**CAPABILITY  
EXPANSION**

- Liquid Injection, Thermoset, and Low Pressure Molding
- Machine Relocation and Retrofits
- Standard Injection Units  
Larger Sizes, Smaller Sizes
- Hydraulic Performance Packages
- Multi-Component Injection Additions  
Multi-Material,  
Multi-Layering
